## INTRODUCTION

I'm Insha Siddiqui a dedicated and ambitious MCA student specializing in Cloud Computing, with a strong foundation in software development and data management. Proficient in cloud technologies such as AWS, Azure, and Google Cloud Platform, alongside programming languages like Java and SQL. Eager to leverage technical skills and hands-on project experience to contribute to innovative cloud solutions.

I have successfully completed projects that include an aggregate website of second-hand car sale using HTML, CSS, JAVASCRIPT AND MYSQL and a Community safety website. Passionate about leveraging technical expertise to solve real-world problems and drive efficiency. Committed to continuous learning and staying abreast of emerging trends in cloud technologies.

I am well versed with knowledge of AWS(EC2,S3,EBS,LAMBDA) and Azure and ready to experience it in real world situation.

## PROJECT

### Gaadi Guru |

March 2024 – June 2024

- Gaadi Guru is a leading online aggregator for second-hand car sales, providing users with access to a vast selection of pre-owned vehicles from various trusted marketplaces.
- Utilized HTML, CSS, JavaScript and MySQL for front end and back end respectively.
- Instead of visiting multiple websites, Gaadi Guru simplifies your search by bringing listings from different platforms into one unified space, making it possible to save time and provide best Deals

### We-safe-website |

Sep 2023 - Jan 2023

- Developed a community safety web application to enhance individual well-being and security.ed essential safety features and resources to support and empower users.
- Utilized HTML, JavaScript, and CSS for front-end development and user interface design
- Focused on fostering collective community efforts for improved safety.

## SKILLS SUMMARY

- Languages:** HTML, CSS, JAVASCRIPT, MYSQL and Java
- Frameworks:** React JS
- Tools:** Git, MySQL
- Service:** AWS, Azure, Linux and Virtualisation
